

Luminorra™

Where Reflection meets Technology...

Once upon a time a Queen asked...

"Mirror, Mirror on the wall...
Tell me, who is my best friend of all...?"

"Me...!! Who else...!!" pat came the answer...

Times change, well... so did the mirror...

Luminorra™ You will wish to possess it...

The average human spends about 10 minutes a day in front of the mirror. Admittedly, most of them look into the mirror about 30 times a day. That means we spend 76 days or about 10 weeks in a year in front of the mirror! The mirror is the most fascinating and cosmetically endearing object created by mankind. Humans have come a long way from using pools of dark water to look at themselves to manufacturing modern-day reflective coated substrates. So, if the German chemist Justus von Liebig (who invented the new-age mirror) were to be alive today, we all know he would have been a millionaire.

Luminorra™ Glow Mirror (Patent Pending) is a fascinating piece of new-age technological art brought to you by Isra Glass®. It has the charm to transform your living space to a trendy and sophisticated surrounding. It can be used in bathrooms and bedrooms, as well as, to create an illusion of a larger living space, by placing it in strategic locations. They can furnish your sweet home with an instant facelift, turning it brighter, bigger and fascinating! Purely a luxury product, it comes in a variety of shapes and forms with a range of features and in five unique types.

Luminorra™ Touch!

The Most Powerful Sense...

The Luminorra™ Touch is a new-age mirror and the perfect device which appeals to your senses – literally. It gives you a feeling of elation and the realization of having entered an age where the meaning of contemporary is actually much more than just an imagination.

The generation has evolved by blending technology with human gestures and touch, and the Luminorra™ Touch works on the same principle. It comprises of a state of the art touch technology, which illuminates the entire glass by a soft touch on the glowing symbol.

Key Features:

- Illuminated blue symbol ~ so no searching for a switch in the dark
- Symbol color turns blue to white on recognizing a touch
- Feather touch operation
- Can be operated with wet hands
- Safe in wet/dry environments

Luminorra™ Demist

Transformation to Clarity...

Isn't it boring to have a mirror in the bathroom and not be able to look into it? At a crucial moment after your bath you want to look into the mirror to dry your hair, or use a shaver, and at that very moment the fog has the mirror all covered. With a Luminorra™ Demist as part of the home, you will no longer have to wipe mirrors after warm showers and leave streaks on them.

The Luminorra™ Demist is equipped with a unique ultra-thin demister pad installed on the back of the mirror. When turned on, it transmits a gentle warmth across the mirror's surface, preventing the steam's moisture from collecting on the colder mirror surface while you bathe or shower.

Key Features:

- See clearly in a warm or foggy bathroom
- Keep mirrors clean and streak-free by not wiping with a towel
- Speed up your morning routine by not waiting for the mirror to become clean

Luminorra™ Punctual

Time is Precious...

Have you ever realized, that a placement of a mirror is not always near a clock, be it a bathroom, or dressing area, you are always wondering what would be the current time. Luminorra™ Punctual is specially designed to keep you on time, every time.

Luminorra™ Punctual is embedded with a Digital LED Clock which is visible through the mirror. The digits are white in color, hence clearly visible even in daytime.

Key Features:

- Equipped with a high-quality Digital LED clock
- Clear white digits sparkle on the crystal clear mirror for easy reading
- Convenient time adjustment

Luminorra™ Jazz

Soothing the Soul...

The ablutions that begin each day are dull and lifeless, while bathing in silence is one of life's little missed opportunities. What about that album you downloaded and haven't listened to yet? Or that podcast that could change your life?

Since few want to take their precious smartphone anywhere near the moist confines of a bathroom, let alone a bath, we've created a mirror with a love for music. The Luminorra™ Jazz is integrated with a powerful Bluetooth and a speaker which can play your favourite songs through a Bluetooth-enabled device.

Key Features:

- Integrated with a Bluetooth V4.0
- Range of upto 10 meters
- Play music by pairing to a Bluetooth-enabled device
- Embedded high-quality vanity speakers to provide the best resonance

The Luminorra™ Advantage

5mm Ultra-Clear; Copper and Lead free mirror:

The Luminorra™ range is manufactured with Copper & Lead free coated mirrors which are a new innovation in itself. It preserves the environment against copper and lead residues and are more resistant to humidity, oxidation, stain, and edge corrosion. It has exceptional clarity and diamond-like brilliance that can withstand the elements of time.

High Output ~ 5000K Luminosity LEDs:

Endowed with high-output, energy-efficient LED lights lasting up to 50,000 hours. as per research, daylight luminosity of 5000k is perfect for dressing up, and for any productive needs.

Durable Aluminium/PVC Frame on back:

The back of the mirror is encased with an Aluminium or PVC frame (depending on the design) for incorporating the components inside it.

Shatter Preventive Film:

An additional film is stuck to the back of the mirror, to keep the mirror in place, incase of any mishap. It will prevent the mirror from shattering, and hurting anyone.

The Luminorra™ Advantage

Lacquer Protection for design and edges:

An additional clear lacquer coat is done on the back edges to give it resistance from ageing, corrosion or rusting. The same coating is also done on the etched areas for avoiding dust, smudges and fingerprints

Ip44 Splash and Dust Resistance:

All Luminorra™ mirrors are manufactured with IP44 rated components, to protect it from splashes inside bathrooms, and dust prevention for interior use

Easy Installation:

Each Luminorra™ Mirror is provided with a wall mount clamp on the back for easy wall installations, just as easy as mounting a picture frame.

Glowing Luminorra™ Logo:

All Luminorra™ mirrors come with a finely engraved glowing logo, which is a hallmark of quality and luxury.
